2024 – Present

Ijin Jo

Service Developer & Product Planner

SUMMARY

Service developer who plans and builds products with public data and AI. Designed a multi-agent analysis pipeline, a rule-engine plus LLM classification flow, and a GPS-based verification system, and owned each from planning and UI design to full-stack implementation and deployment.

AWARDS

2026 Grand Prize, Open Source SW Hackathon (JBNU College of AI Dean's Award) **(CHAEUM)**
2026 Excellence Award, MOTIE Public Data Contest (K-SURE CEO Award) **(EAAI)**
2026 Bronze Prize, SW Competition **(SpeakUp)**
2026 Encouragement Prize, 3rd Honam SW Startup Idea Competition **(J:ON)**
2025 Excellence Award, Open Source SW Hackathon **(Toss-Talk)**

PROJECTS

EAAI — Export Decision Multi-Agent Platform | Solo · 2026

- Designed a seven-stage agent pipeline with a reviewer agent for strategy validation.
- Linked K-SURE risk APIs to the export-fit score; built with React and FastAPI, deployed on Vercel.

TRIPICK — GPS-Verified Travel Course Platform | Team · Planning, Frontend · 2026

- Designed TRIPICK Score from completion, satisfaction and participants, with spoofing detection.
- Unified TourAPI calls behind a caching proxy; built the React Native app and web client.

J:ON — Youth Job Navigation for Jeonbuk | Team · Planning, Development · 2026

- Back-calculated blocking conditions to show postings one qualification would unlock.
- Cross-checked postings with National Pension data; 11 consistency checks run automatically.

GSBP — Account-Lending Scam Detection | Solo · 2026

- Separated rule-engine verdicts from Claude API explanations, with a rule-based fallback.
- Built with Next.js 16 and deployed on Vercel, with Korean/English support and rate limiting.

CHAEUM — Vacant Storefront Diagnosis and Matching | Team · UI, Agent Design · 2026

- Designed and built the full service UI and the LangGraph multi-agent structure.

OTHER PROJECTS

- **Haenggan** · Shared e-book reading where notes appear only up to each reader's progress
- **VINE** · Learning agent that turns course notices into tasks; Round 1, national startup program
- **SpeakUp** · Real-time speaking coach; web frontend
- **Toss-Talk** · AI emotional care service; led planning and development
- **PRISM** · **SPARK** · Paper reproduction assistant · Shrimp species identification tool
